PART G

ADDRESS TO WHICH YOU SHOULD SEND YOUR APPLICATION

STIRLING COUNCIL
Environmental Services
Municipal Buildings
Corn Exchange Road
STIRLING
FK8 2HU

Telephone Number: 01786 443322

NOTES

- (1) Where on application it appears to the Secretary of State or the local authority that it is unreasonable that any provision of the building standards regulations should apply to any particular building, the Secretary of State or the local authority may give a direction relaxing that provision in relation to that building. If you are in doubt to whom your application should be addressed, you should seek advice from your local authority. If your application is to be addressed to the Secretary of State, a copy must also be sent to the local authority.
- (2) Applications to the local authority should be sent to the address shown at Part G of the form. The local authority can advise you where applications to the Secretary of State should be sent.
- (3) If the local authority refuse to dispense with or relax the regulations or apply conditions to a relaxation which you find unacceptable you may appeal to the Secretary of State against their decision. You must appeal within 28 days from the local authority's decision by completing Form 3 and sending it to the Secretary of State (see note 2).
- (4) If the local authority do not give a decision within 2 months of you making the application you may appeal to the Secretary of State following the procedure in note 3.
- (5) Section 10 of the Building (Scotland) Act 1959 gives powers to the local authority to remove or make a building conform to the Building Standards Regulations where the building was constructed without a warrant, in contravention of the conditions of the warrant, or where the life of a limited life building has expired. Section 11 gives power to the local authority to require buildings to conform to the Building Standards Regulations.
- (6) The local authority can advise you on what plans, drawings, specifications and other particulars should accompany your application.
