Thanks also to the Forestry Commission for providing Christmas trees in Aberfoyle and Kinlochard.</p> <p>Bus routes: new system. Still issues with 24hr notice for booking DRT. Also concerns re accessing surgeries, particularly open surgeries in Buchlyvie. Both Medical centre and transport access need to be addressed. It was suggested that community transport should be explored. Strathard News will ask about car share participation in Strathard. Fiona will collect a list of transport issues with a view to inviting David Brown or Derek Parry to a meeting.</p> <p>Closure at Ballat: Caused by damage to aqueduct bridge: meeting 19th January now arranged in Balfron. All affected CC's attending plus Councillors and Scottish Water. Aims could be to shorten time of closure, possibly open for holidays, work longer hours and improve signage. Ideally MSP Bruce Crawford to be involved.</p> <p>Flooding: Still unclear as to current situation regarding Strathard flooding scheme, and awaiting plans which will be presented to a Stirling Council committee. Recent rain caused flooding from Altskeith to Tigh-na-Traigh, a combination of leaves plus snow melt causing water to be held back on the road. This followed Council improvements to the wall. To be followed up.</p> <p>Refuse collection: Outlying areas still not being cleared on time. Wait to see if it improves now Xmas holidays are over.</p> <p>Resilience event: Organised by Stirling Council to be held on 21st January. Details to be circulated and school representatives contacted.</p> <p>Stirling LCCT Workshop / Aberfoyle Hub: In relation to the Stirling event on 15th December, it was confirmed by J Fifield that similar project work was ongoing in Aberfoyle to introduce a low carbon transport hub, with a deadline of the end of January. £500k of funding was available from Transport Scotland. Other details were not yet clear and more information would be welcomed once available..
